

Instructions for Go Pro License Plate Mount

Parts Included

1-Plate Mount

2-M5 Fender Washers

1- M5 Wing Nut

Mount plate mount on top or bottom of license plate. You may need to get longer mounting hardware depending on what plate frame you have and what surface you are mounting to.

Install camera case on mount and used one of each supplied M5 fender washers on each side and install wing nut. Set the camera angle and you are ready to record.

***We strongly recommend putting some Loctite on these 2 small screws.

For added angle options use the 2 Go Pro Posts that come with the camera
